The Formeset Group:

A Legacy of Growth and Purpose

FORMESET

GROUP OF COMPANIES

THE FORMESET GROUP

AN EMPOWERMENT **SUCCESS STORY**

The Formeset group has been building relationships with clients for the last 20 years. that is how we grew from a small printing operation in 1991 with limited resources and just 20 staff members operating from a single business unit in Beaconsfield to a thriving empowerment success story today, employing 800 staff members and competing with the best in the printing industry. we are still about building relationships offering our clients the best, most efficient service we can.

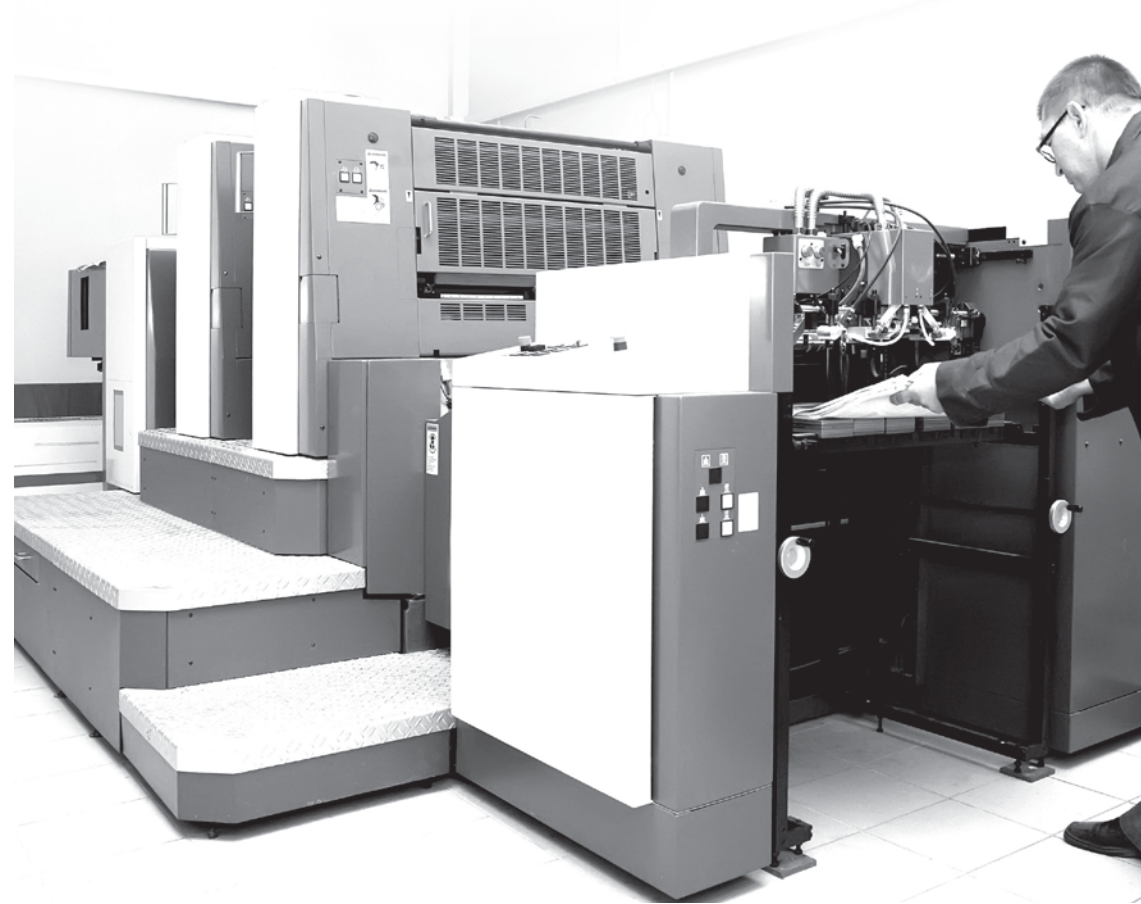

OUR RESPONSIBILITY

The cornerstone of our success is a work ethic that is highly motivated, enthusiastic and productive. We believe in participation and equality within the workplace and that it is our responsibility to nurture such an environment throughout our business.

We are committed to keeping our employee equity code and procedure an active document ensuring that equity is achieved at all levels of the workplace. We are committed to the process of implementing, monitoring and evaluating this system of employee equity within our organisation.

As a BBBEE Level 1 company, all the shareholders and directors and 90% of the management team are from a historically disadvantaged background. We have an established network of previously disadvantaged SMEs as our trading partners and suppliers while outsourcing several non-core advantaged individuals and companies.

“ WE COMBINE SKILLS AND EXPERTISE
WITH STATE OF THE ART TECHNOLOGY
TO MEET ALL YOUR NEEDS.”

OUR MISSION

OUR GOALS

To become South Africa's printing choice for quality, service and reliability.

OUR STRATEGIC OBJECTIVES

- To be the foremost printing group focused on select customers with specialised printing requirements
- To continue to add value in innovative ways in order to remain unique from our competitors
- To maintain a high level of acknowledgement and respect for the professional manner in which we conduct business
- To attract talented people who are motivated to perform at high standards

OUR VALUES

From the smallest to the largest job, our values are what drive us.

- Quality service
- Empowerment and creating employment opportunities
- Rigorous quality control
- Recognition and development of our people
- Speed, efficiency and reliability

SERVICES

We print: Books, magazines, brochures, newsletters, leaflets, posters, promotional items, banners, business cards, letterheads, compliment slips, office stationery, file cards and more.

Litho Printing

Newspapers, magazines, leaflets, catalogues, advertising inserts, newsletters

Full service printing and project management

Including specialised finishing like UV varnishing and specialised binding

Digital Printing

Billboards, outdoor signage, vehicle graphics, backlit signs, banners, posters

Newspapers, magazines, leaflets, catalogues, advertising inserts, newsletters

Large multi-format and screen printing Decals, entry form boxes, display stands, foyer displays, retail signage

Continuous Printing

Pre-printed stationery, invoices, orders, delivery note books and pads, statements, bar-coded waybills, self-adhesive labels, window dressing rolls

Language editing, layout and design, complete bureau service including scanning, proofing, posters and image setting

Binding and Finishing

A wide range of binding and finishing requirements such as sewn, PUR, perfect, wire binding and saddle stitching.

SPEED, EFFICIENCY, QUALITY AND RELATIONSHIPS

We understand our clients needs because we build relationships with them. In a world where technology is accomplishing great things, we believe that nothing can replace the value of having the right relationship.

Speed: We deliver quality printing solutions within the best possible timeframes, putting us ahead of our competitors in terms of delivery and flexibility.

Efficiency: As a group we have access to an incredible range of printing solutions to give our clients the most efficient service.

Quality: We never compromise on quality. As a core focus of our business, all our clients can expect the same high quality on every print job.

- Various ancilliary finishing equipment, such as two Bielomatik (high spec.) Roll-fed collators, two Guillotines

LITHO PRINT

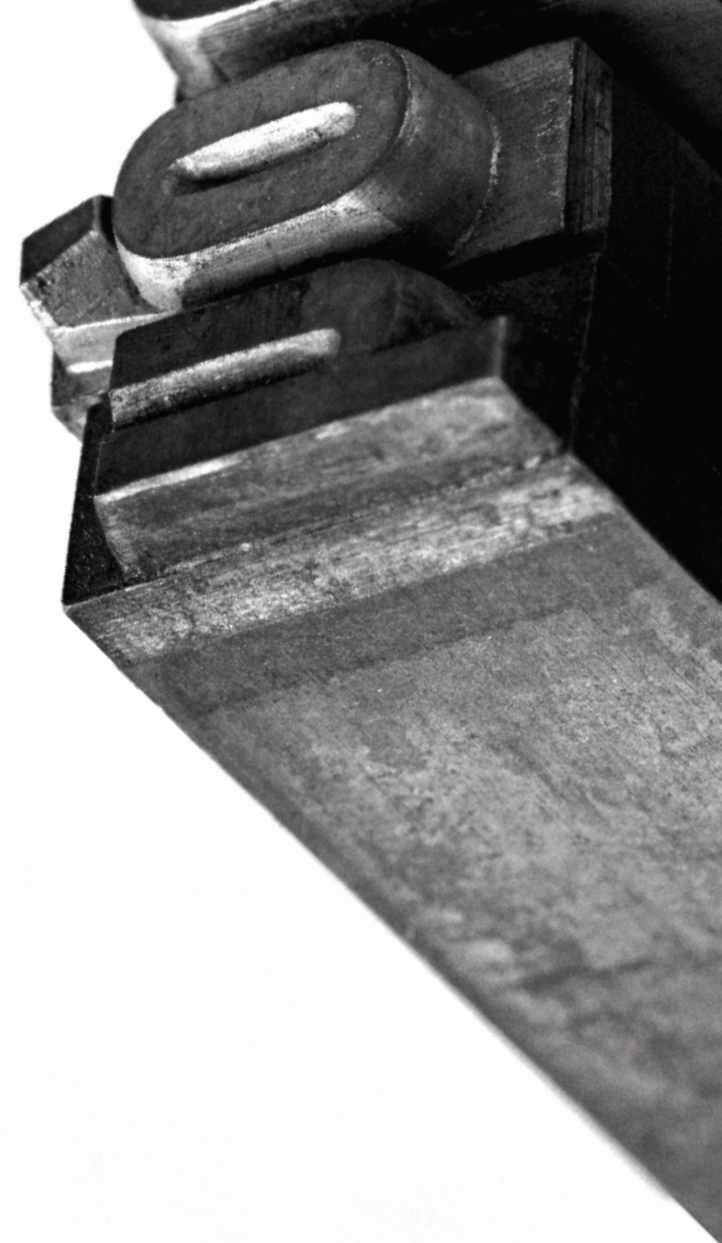

Starting in 1970, Remata moved into the limelight in 1987 with the launch of the first Desktop Publishing Bureau in South Africa. Merging, what seemed to be opposing fields – computers and print – was not only a challenge but an opportunity that was exciting and could by no means be ignored. Early 2016, Point Of Sale Service was added opening up a whole new space for clients to offer more than ever before allowing them to grow their businesses together with us.

Remata, continuing in the legacy as a constant market disruptor, installed the latest Komori HUV litho press, replacing the older conventional presses thereby becoming the first in South Africa to offer the benefits of HUV drip-off technology to clients. The size offered was also increased to accommodate A1 instead of the normal B2 size. This spec allows for larger runs, faster print speeds and for drip-off effects to be created during the print run and in many cases reducing the need for outside finishing like spot UV.

In early 2023 Remata became part of the Formeset Group which encompasses quality companies like ABC Press, Lexlines and Creda Communications which already have a good footprint in litho large run quality book work, digital offerings for the print of short runs books and all forms of continuous stationery. This partnership has helped broaden Remata's product offering to its existing clients.

PRODUCT OFFERINGS

- Layout & design, web services
From Business Cards, Folders, Brochures, Books, Annual Reports or even Catalogues, the team is competent to complete any desired design and layout challenge.

DIGITAL PRINT

LEADERS IN LARGE FORMAT PRINTING, BRANDING AND ACTIVATION.

Based in Sandton and formed in 1955, Beith Digital is one of the longest standing printing companies in South Africa.

Through innovation, quality and value for money, the company has established itself as a leader predominantly in the large format printing market.

A complete turnkey solution offered by Beith Digital. From exciting initial concepts in conjunction with the client's vision including full-service design, DTP and pre-press. In addition, 360-720 dpi roll to roll printing, flatbed and screen printing, installation, lighting, project management, digital signage as well as web and litho printing. Our IdeaLab will suggest and compile structurally sound and professionally designed renders using award-winning industrial design software (ESKO). This allows the client to visually understand how their project will look in reality. Every technical aspect of the final product is tested digitally prior to production of a sample.

We are experts in graphic arts with a DTP studio on site. We analyse and check all artwork, size and colour before sending off to the output units for optimum efficiency and manufacture. CGS Colour Management Software ensures all jobs will have colour consistency regardless of which machine it is printed on. Beith Digital offers you versatility and capacity that is supported by industrial equipment and machinery available for multiple media and advertising formats. We keep abreast of international trends and market needs and take pride in leading the industry within South Africa. Equipment, software, machinery, technology, environmental impact and quality stand out amongst other players in this field. We simply do not cut corners and offer our clients the very best value for money.

Beith Digital owns water based environmentally friendly high -quality Latex machines, super grand format UV machines that are able to print at 300m2 per hour equating to 300 000 m2 per month. We are the first company in Africa to purchase the Fb7600 Industrial Press from HP. Textile and fabric soft signage products are expertly printed using strikingly bright UV inks, or for shorter campaigns, water based latex inks. Anything from a gazebo to a fabric frame, our textile graphics are amazing.

All our finishing services are done in-house using Zund Automatic digital die cutting machines, 3m guillotines, UV coating, PVC welding, sewing, eyeletting and heat bending, we do it all. Our expert project management, account executives, outdoor media specialists and client service teams take care of every project from concept to delivery based on your detailed brief and project specifications. These team members will professionally guide you through the various processes of production, managing overnight tight deadlines and ensuring accurate on-time delivery and post-campaign reporting. This included managing multi-national retail store roll outs, logistically moving and lighting hundreds of billboard campaigns as well as wrapping fleets of buses and taxis.

Our installation teams, lighting and height access technicians around the country are trained and skilled to add the final touch to any campaign. As a subsidiary of the Formset Group of companies, Beith Digital has access to additional printing formats. Using litho and digital printing covers the demand of magazines, brochures and flyers, with an efficient turnaround. Digital signage in reception areas, stores and retail spaces using LCD screens, video walls or Micro Tiles reinvents the advertising

experience to your consumers. Giant high-resolution screens, short term personalised and mobile screens for all types of campaigns, is implemented and managed by our teams for the duration of the activation.

The Beith Digital team is proud to have worked with world class brands subscribing to unparalleled service, quality and delivery. The numerous years of experience, commitment and energy ensure that Beith Digital is selected as your partner to build your brand.

BRANDING OF SPECIAL EVENTS

Beith Digital (Pty) Ltd assigned to Brand

1) East Side of SARB building in Pretoria in 3 Phases:

Phase 1 (Aug/Sep 2012) - Branding 2400m2, 80m (H)

Phase 2 (Nov 2012) - Strip 240m2 and replace with "Digital Countdown Clock".

Phase 3 (March 2013) - Remove "Digital Countdown Clock" and replace with 240m2 New Note Creative.

2) Chosen as the branding partner for the Shell V-Power Nitro+ Festival.

The project included 400 + water barrier banners and 242x 6m long Concrete Barriers, 210 Telescopic Banners, Boulevard Banners, Stage / Camera / MC / PA and Various Platform Banners, a Special Gantry Bridge across the track and the Ferrari F1 Pit that had to be branded. All the substrates printed on were carefully selected in line with Shell's safety regulations which included fire retarded fabric and PVC.

DIGITAL PRINT

3) 2019 Rugby World Cup – Tokyo Japan.

Beith was commissioned to produce decor for 12 stadiums in Japan 12 854km away.
Printed and cut 1850x 6mm foam PVC boards packed per stadium.
Printed on Dot vinyl for all bathrooms and coach rooms. 8000sm.
Over 15 pantone colours matched onto 6 different types of materials including
Concrete Vinyl, Dot Vinyl and Acrylic Presentation Stands.

4) Commissioned by CSM Live to produce and install branding collateral for the Formula E GP in Cape Town.

The project included Branded Gantries around the city centre,
Branded hospitality stand.

5) Branded Discovery office in Oceans Umhlanga, Airport Lounge, and Internal Façade areas.

Project consisted of producing and installing branding for Offices, Pause Areas and 3D Signage - Airport Lounge entrance and Airport Façade Areas.

6) 2024 - ICC U19 Men's CWC.

Beith commissioned to produce decor and branding for all stadium collateral and vehicle branding

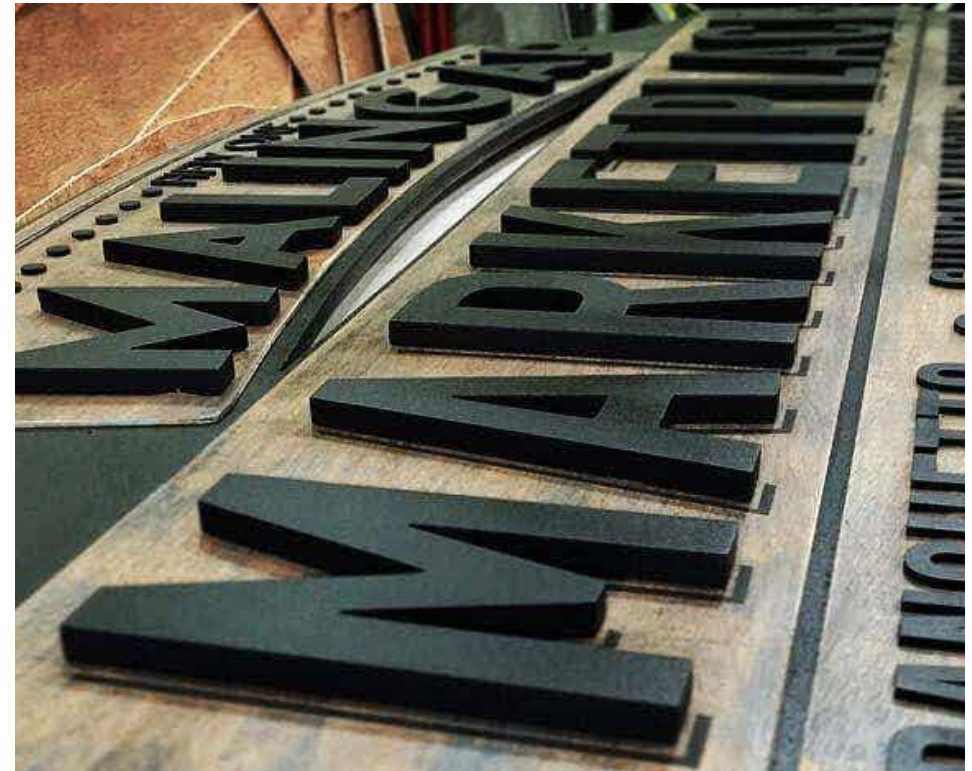

BRANDING PRINTING

General Signage: Includes retail, factory, corporate, casino, hotel and spa, vehicle and fleet signage. The division also manufactures branding for many sporting events, stadiums and exhibitions around the country,

Wall Art: Wallpaper, canvas and vinyl cutouts to enhance your office, restaurant or studio. We also do acrylic and glass prints.

LED Lighting: Lighting: Plug in or battery operated. For plinths, lightboxes, product glorifiers, and retail displays.

Textile: New innovative, multipurpose fabric framing system designed to display your fabric prints in a multitude of different ways. Suspended hanging banners, pull up banners, photo walls, wall mounted lightboxes, retail walls, ceiling panels, display canopy. We also have a interior decor range.

DIGITAL PRINT

Screenprinting Division: This division manufactures a wide range of products including advertising signboards, estate agent boards, point-of-sale and display material, promotional items, decals and labels.

Eco-Board Display: Leading the way in green display solutions. Flat-pack, Promotional, Expo and Retail stands. 100% Recyclable. Aqua Display: In-store promotional displays, counter top displays, pouring bottles, glasses of bubbling liquid and even cascading mist. Incorporate into any of your promotional displays.

Retail Display: Any display in a retail environment. From LED-lit fabric wall mounts, to store display window special effects, to floor graphics, product display stands, promotional counter stands.

Laser Cut: Cutting and engraving of acrylic, wood, leather, cork, die-bond

Vinyl: Full vehicle wraps, retail window displays, wrapping of promotional items such as bar counters or ice buckets, floor graphics.
